

# AKASH DAS

Data Analyst

8144065507 | cchiku123456@gmail.com | linkedin.com/in/akashdastech | github.com/akhubdev

## SUMMARY

Aspiring Data Analyst with hands-on experience in SQL, Advanced Excel, Power BI, Python, and MySQL. Skilled in data cleaning, exploratory data analysis (EDA), dashboard development, and transforming raw data into actionable business insights. Passionate about solving business problems through data-driven decision making and continuously improving analytical skills using real-world projects.

## TECHNICAL SKILLS

**Programming Languages:** Python, SQL.

**Data Analytics:** Advanced Excel, Power BI, Pandas, NumPy.

**Core Skills:** Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Business Intelligence.

## PROJECTS

### CivicAI – AI Powered Community Issue Intelligence Platform

June-2026 June-2026

*Hackathon project*

*Python, Flask, SQLite, HTML, CSS, JavaScript*

- Developed a community issue reporting platform using Flask and SQLite.
- Built analytics dashboards to visualize issue trends and location-wise insights.
- Implemented authentication, issue tracking, search, and reporting features.

### Sales Analytics Dashboard

05-2026

*Data Analytics project*

*Microsoft Excel, Pivot Tables, Data Visualization*

- Cleaned and transformed sales data using Excel and Power Query.
- Built interactive dashboards with Pivot Tables, Charts, and Slicers to monitor KPIs.
- Analyzed sales trends, regional performance, and product insights for business reporting.

## EXPERIENCE

### Data Analytics Trainee (Ongoing)

27-May-2026 – Present

*Coding Ninjas – IIT Mandi*

*Remote*

- Learning Advanced Excel, SQL, Power BI, Python, and data visualization for business analytics.
- Working on real-world datasets involving data cleaning, exploratory data analysis (EDA), and dashboard development.
- Building hands-on projects and solving business case studies to strengthen analytical and problem-solving skills.

## EDUCATION

### Adarsha College of Engineering (ACE)

Angul, Odisha

*B.Tech in Computer Science & Engineering CGPA: 8.03*

*2023 – 2026*

### Major Project : HealthGuard AI – Diabetes Risk Prediction System

*Built an interactive healthcare analytics dashboard with prediction history.*

*April 2026 – May 2026*

## CERTIFICATIONS

**Data Science, ML & Deep Learning Using Python** – Syllogistek Systems Pvt. Ltd.

Jun 2025

Certificate ID: SYL-2025-ML1-46

**Vibe2Ship - Certificate of Participation** – Coding Ninjas & Google for Developers

Jul 2026
